PROJECTS

DoggyCare

2021 - present

Website designed to make the booking of dog services easy. Choose between dog day-care, boarding, and walking services, and book your chosen date and time. I am currently working on the server side to make the website fully functional.

Tech stack used:

- React.js
- CSS
- JavaScript
- NodeJS
- PostgreSQL

Movie Search

2021

Search for popular movies, or check details of movies of your choice. Movie data is fetched from Movie API and displayed in a user-friendly, responsive way.

Tech stack used:

- React.js
- CSS/styled
- JavaScript
- NodeJS
- Movie API

Face Recognition

2021

Full app with user registration and login. Upload an image URL and let the app detect a face in that image.

Tech stack used:

- React.js
- CSS
- JavaScript
- NodeJS
- Express
- API calls
- PostgreSQL
